

# FIREMANS PAVING CONTRACTORS

With 12+ years of experience in creating a safe environment for our clients, we are expanding to the emerging needs of our community with health & safety services to help slow the spread of Healthcare-Associated Infections (HAIs) to include COVID19. As businesses, schools & universities are opening back up, we are offering an EPA approved Electrostatic Disinfectant solution using cutting edge technology manufactured locally for a comprehensive, uniform & effective application that kills 99.9% of these germs. Check out our blog for more information and contact us for a FREE Estimate Today!
